EXPERIENCE

Web Developer Intern | *BizSolutions LLC · US (Remote)* | 2025

- Contributed to 10+ client-facing web application features across multiple sprint cycles, delivering production-ready React.js components aligned to project deadlines and client specifications.
- Built and maintained a library of reusable, responsive UI components using React.js and Tailwind CSS, reducing redundant front-end code and accelerating feature delivery across team projects.
- Participated in Agile Scrum ceremonies, daily standups, sprint planning, and retrospectives — collaborating asynchronously with a US-based development team across time zones.
- Managed source code and pull requests via GitHub, maintaining clean commit history and enabling seamless code review and deployment workflows with the lead developer.

Thesis — CampusGo | *Holy Cross Colleges, Inc.* | 2025–2026

- Architected and delivered CampusGo, a full-stack Augmented Reality campus navigation system built with Unity and AR Foundation from requirements through a formally presented, tested prototype.
- Designed and implemented AR marker detection, real-time 3D waypoint rendering, and a gamified reward system, owning the core technical architecture across all development phases using an Agile sprint model.
- Conducted structured user testing sessions and iterated on UI and AR performance based on tester feedback, producing a system that met both academic standards and real-world usability requirements.
- Won Best Research Paper and Best Presenter at the institutional colloquium, presenting CampusGo to a panel of academic evaluators and demonstrating both technical depth and research communication excellence.

Mobile App Developer | *Holy Cross Colleges, Inc. · Academic Projects* | 2025

- Developed and internally tested cross-platform mobile applications using Flutter (Dart), implementing Cupertino design guidelines to deliver polished, user-consistent iOS and Android interfaces.
- Configured and maintained CI/CD pipelines using Codemagic, automating build, test, and deployment workflows — reducing manual release overhead and enabling faster iteration cycles.
- Debugged and optimized application performance using Android Studio, resolving build and runtime issues to maintain consistent app stability across tested devices.
- Versioned all project code via Git, practicing clean branching, structured commits, and collaborative workflows in team-based development scenarios.

Secretary — SSITE Student Organization | *Holy Cross Colleges, Inc.* | 2022–2023

- Coordinated operations for a tech-focused student organization, managing communications, meeting logistics, and event execution for a chapter of student developers.

EDUCATION

Holy Cross Colleges, Inc. | *BS in Computer Science* | 2022–2026

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, React.js, Node.js, Flutter (Dart), Tailwind CSS

Tools & Platforms: Git, GitHub, Android Studio, VS Code, Codemagic, Linux/Ubuntu

Concepts: Responsive Web Design, Component-Based Development, Agile/Scrum, CI/CD, UI/UX Basics, Debugging

Soft Skills: Cross-timezone Collaboration, Communication, Critical Thinking, Time Management

CERTIFICATIONS

- AWS / Cloud Computing (Stephane Maarek) — ‘est. August 2026 | Udemy
